| 2023 – 2024       | <b>KBZ ATMS, Attendance and Training Management System</b> <ul style="list-style-type: none"> <li>- Designed and developed a comprehensive Attendance and Training Management System to streamline processes and improve efficiency within the organization.</li> <li>- Implemented robust features such as automated attendance tracking, real-time reporting, and performance evaluation tools to enhance workforce management.</li> <li>- Conducted thorough analysis of user requirements and business objectives to tailor the system to meet specific organizational needs and goals.</li> <li>- Integrated the system with existing HR systems and databases to ensure seamless data flow and accurate record-keeping.</li> <li>- Provided training and support to users on system functionalities, troubleshooting, and best practices to maximize adoption and utilization.</li> <li>- Collaborated with stakeholders across departments to gather feedback, identify areas for improvement, and continuously enhance the system's capabilities.</li> <li>- Maintained system integrity and security through regular updates, data backups, and compliance with data protection regulations.</li> </ul> |

- Monitored system performance, generated reports, and analyzed data to identify trends, track key metrics, and make data-driven decisions for organizational growth and development.

2023 – 2023

#### **EDKA Official Website, Landing Page**

- Led the design and development of a visually stunning and user-friendly company landing page to effectively showcase products, services, and brand identity.
- Conducted user research, analyzed target audience demographics and behaviors, and incorporated best practices in UI/UX design to create a compelling and engaging user experience.
- Collaborated closely with marketing and branding teams to ensure alignment with brand guidelines, messaging, and overall marketing strategy.
- Designed high-fidelity mockups, interactive prototypes, and responsive layouts to cater to various devices and screen sizes while maintaining a consistent user experience.
- Utilized industry-standard design tools and technologies to create visually appealing graphics, animations, and interactive elements that captured user attention and encouraged engagement.
- Implemented clear calls-to-action, intuitive navigation, and optimized performance to drive conversions, increase user retention, and achieve business objectives.
- Conducted usability testing, gathered feedback from stakeholders, and iterated on designs to continuously improve the landing page's effectiveness and user satisfaction.
- Stayed informed about emerging trends in web design, user interface design, and user experience best practices to deliver innovative and cutting-edge solutions that set the company apart from competitors.

2022 – 2023
